

# CH2MHILL®

The things we look for when hiring an entry-level engineer:

- MSCE with some specialty exposure (such as a bridge design course, specialty in structures for thesis)
- EIT certification
- A candidate who sees themselves staying in a position for a long time (passion!)
- Internship experience
- MicroStation and/or AutoCAD experience
- Demonstrated leadership (i.e. office of student organization, captain of ASCE concrete canoe or steel bridge team, etc.)
- Strong oral and writing skills; ability to interact with people effectively
- Strong organization skills and multi-tasking ability
- Strong analysis and problem solving skills
- Ability to work and communicate successfully in a team environment, including oversight of junior staff
- Self-motivated with the ability to work independently
- Detail and quality focused
